

## Pharmaceutical Pricing and Reimbursement Information (PPRI)

### Objectives

The PPRI project aims to improve knowledge and promotes information exchange about the pharmaceutical systems in the enlarged Europe,

- by establishing and promoting a vivid network of competent authorities and relevant institutions,
- by providing comprehensive country reports on the EU Member States and
- by offering a comparative analysis on pharmaceutical pricing and reimbursement in the European Union.

### Project description and outcomes

Specific objective of the PPRI project	Work package (WP)	Key deliverables of the PPRI project
Strengthening the networking of relevant institutions in the field of pharmaceuticals	WP 1 'Coordination'	PPRI network, comprising over 40 participating institutions PPRI Intranet website with a discussion forum PPRI glossary for guaranteeing a common understanding
